STATE ANIMAL

RINGTAIL

The RINGTAIL is a mammal of the raccoon family, native to arid regions of North America. The ringtail is sometimes called a cacomistle.

STATE FLOWERS

SAGUARO

The SAGUARO CACTUS BLOSSOM, the official state flower, can reach more than 50 feet tall and live more than 200 years. In May and June it blooms in the middle of the night, surviving only about 18 hours for pollination by nocturnal animals.

STATE BIRD

CACTUS WREN

The CACTUS WREN is a species of wren that is native of the southwestern United States and central Mexico. Often found around Yucca, Mesquite or Saguaro. Cactus wrens nest in cactus plants; sometimes in a hole in a saguaro.

STATE FISH

APACHE TROUT

It is one of two fish native of Arizona, the other is the Gila Trout. The Apache Trout is unique in Arizona, and is not found anywhere else. It is considered an endangered species.

THE GRAND CANYON STATE

Arizona's nickname is The Grand Canyon State. The Grand Canyon is a steep-sided canyon carved by the Colorado River. It is contained within and managed by Grand Canyon National Park. It is 277 miles long, up to 18 miles wide and 1 mile deep.

THE GRAND CANYON STATE

STATE INSECT

TWO-TAILED butterfly

Arizona designated the two-tailed swallowtail butterfly as the official state butterfly in 2001.

A large butterfly (wingspan 3-5 inches), the two-tailed swallowtail is found only west of the Mississippi in North America.
